

Website Design Quote Form

This quote form will help us put together a solution that best reflects you or your small business. What you say here will determine how much work needs to be done and **will save you time and money by helping identify your specific project requirements**. Please fill in as much as possible.

Project Details

Your name (required) *

First Name Last Name

Your email (required) *

example@example.com

Phone number *

Area Code Phone Number

What is your estimated budget? (required) Sharing a realistic assessment of what you plan to spend on this project will help us scope the engagement appropriately.

In short, what this project is about? (required)

What is your current or intended website address?

How soon do you need the new website completed?

Approximately how many pages/sections will your website have?

Do you already have a logo or branded materials such as business cards, stationary?

Yes

No

How important is Search Engine Optimization for your website?

Do you need hosting and email?

Yes

No

Current Website

With whom do you currently host your website?

Will the existing website content be used?

Your New Site The importance of first impression is paramount. How should visitors describe your new site? (Examples: modern, user friendly, bold, corporate, fun, forward thinking, innovative, bright, calming, elegant, clean, minimal, etc.)

Who is your target audience? (Examples: age, industry, gender, income, geographical area, etc)

What kinds of images best reflect your business? (Examples: business images, product images, industry, nature, etc)

Do you have a color scheme? If not, what is your color preference?

Do you need a Content Management System (CMS) to be able to maintain and add content to your website without (or with little) external help?

Yes

No

Not sure

Besides page editing and latest news feature, name other specific requirements of the CMS. (Examples: blog, calendar, search functionality, quote form, etc.)

Do you need E-Commerce?

Yes

No

Please list your competitors' websites. What do you like and not like about their websites?

Are there any particular websites that you like? Why? (Examples: page elements like headers, menus, sidebars, colors, typography, photos, etc.)
